

MedValue Paper Claims-to-EDI Conversion Services™

MedValue is the leading provider of Medical Claims Processing Services to Health Plans, TPAs, MSOs and Managed Care companies throughout the United States.

We convert **tens of thousands** of CMS-1500, HCFA-1500, UB-04, Vision, Dental, and non-standard paper claims to EDI formats such as ANSI 837-4010 for our customers **every day**. Our customers enjoy the consistency and reliability that accrues to them by working with MedValue.

Simple and affordable, our service automates your front-end claims processing, cuts costs, eliminates manual data entry, improves accuracy of Auto Adjudication rates and Reduce Pend rates while at the same time improving turnaround time. It additionally enhances productivity of your claims examiners by making it easy for them to review all paper claims and their attachments on our web-based Document Management System (DMS), for easy Search and Retrieval of claims anytime.

Benefits

- **Complete Mailroom Solution** includes pickup of claims from a P.O. Box, scanning, separation of claims & Correspondence, and Conversion of Paper Claims to ANSI EDI 837 formats.
- Savings of **over 40%** compared to your existing costs
- **Improved Auto Adjudication** and **Reduced Pend Rates** with **tight integration** with your Provider and Member Databases
- **Simple Variable Cost Model** with no upfront capital investment in hardware, software or IT resources
- **Enhanced Pre-Adjudication** by validations with AMA® CPT/ICD Code databases, Modifiers, Industry Business Rules, & your custom business rules, business practices and policies
- Leverages **MedValue Claim Repair Technology**
- Full support for latest CMS-1500 & UB-04 forms and NPI
- **Easy search** of Claims & Correspondence using MedValue DMS
- Experience with most Claims Adjudication Systems and their interfaces such as **Facets, IDX, Diamond, EZ-CAP, Health-Trio, In-house systems** and more.
- **Rapid Implementation Timelines** as most transitions are completed within 30 days.

You can count on us for consistency & reliability

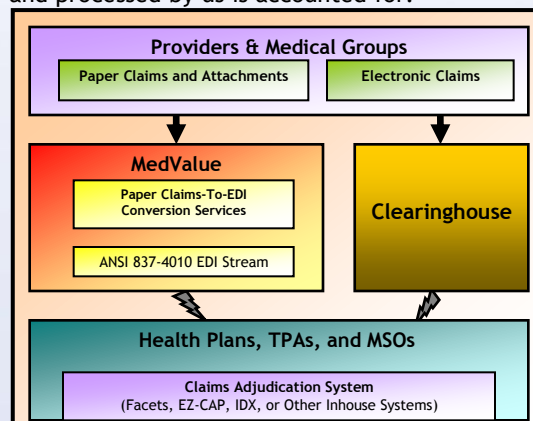

MedValue's Paper Claims-to-EDI Conversion Services have been designed to enable Claims Departments to eliminate paper and populate their Claims System with claims data without requiring any manual data entry. MedValue's Paper Claims-to-EDI Conversion Services provide our clients' two key capabilities **reliably** and **consistently** on a **daily** basis:

1. Converts all your paper claims, Vision Claims/Orders, & any Non-Standard claim forms into standard ANSI 837-4010 EDI files, similar to the EDI files your claims department receives for electronic claims from clearinghouses.
2. Stores your paper claim images electronically in our web-based **Document Management System (DMS™)** for easy Search & Retrieval from any PC connected to the Internet.

Our Processes & People are our Differentiation

Our process is easy to implement. On a daily basis, either we pick up your claims or your staff scans the CMS-1500/HCFA-1500, UB-04/UB-92, Vision & ADA claims along with attachments to our Secure FTP Servers, and we do the rest.

We also provide full support for all mailroom functions such as picking claims from your PO Box, opening and handling mail, prepping, scanning and more. We provide you Management Information Summary on our web based **Workflow Management System (WMS)** portal, and via daily email status reports so that every claim sent to us and processed by us is accounted for.

Low Cost & High Value

Our services are very affordable and are a variable cost to you. You do not need any upfront expenses on Hardware, Software or IT staff at your end.

MedValue clients are saving between **over 40%** off their fully loaded paper claims processing cost and enjoying over **99.75% Accuracy** and **1 day Turnaround** by using MedValue's Paper Claims-to-EDI Conversion Services.

Call us today to see how Health Plans, TPAs, MSOs and Managed Care Entities have benefited by partnering with MedValue for their unique claims processing needs.
